Quick instructions

TELIA

ABCENT MESSAGE

Quick instructions

Absent Message: Service management

The company's contact person:

- All Telia Absent Message subscriptions can be managed over Telia Corporate Terminal

End user:

- After connection the user can adjust the service settings and define the state of the Telia Holiday Message or Absent Message: in "on" mode (announcement is played) or "off" (announcement is not played)
 - By SMS
 - On the Internet

Holiday Message: Management by SMS

- Management is easily done by sending the desired search word to the short number of the service 15400
- Search words of the service
 - LT (or LOMATIEDOTE) – Service activation without setting of time of return
 - LT DDMMYY – Service activation and setting of date E.g. LT 010809
Please note. The message will be deactivated automatically when the return time is reached.
 - LT DDMMYY HHMM – Service activation and setting of date + time E.g. LT 010809 0900
Please note. The message will be deactivated automatically when the return time is reached.
 - LT POIS – Setting the service into "off" mode
 - LT OHJE – Service instructions by SMS
