

# Netflix streaming service bundle terms

The Netflix service is provided to you by Netflix. The other services included in the bundle offer/pack are provided by Telia.

In order to enjoy the Netflix service as part of your bundle offer, you will need to activate the Netflix service by completing the Netflix activation process. You will receive instructions on how to activate the Netflix service via email.

If you already have an existing Netflix account, you can link it to your bundle offer when you activate Netflix as part of your bundle offer. You **will continue to be charged separately for any existing Netflix account until you link that account to your bundle offer**. For any queries regarding your billing with Netflix for your existing Netflix account please contact Netflix directly.

If you link an existing Netflix account to your bundle offer, terminating the bundle offer or switching between content options as part of your bundle, offer will not automatically cancel your Netflix membership, and Netflix will automatically resume charging your existing payment method that they have on file once your bundle offer ends. If you wish to review the details of your Netflix membership, please visit the Account pages on the Netflix website.

Telia will share the email address and/or phone number registered to your Telia account with Netflix to facilitate your activation of the Netflix service included in your bundle offer.
