### Prices, Value Added Tax, payment terms and default interest

The prices of the access network products consist of monthly and one-time fees ( incl. installation, transfer and delivery charge). The access network is formed between the cross-connection point of Telia's equipment shelter – for example, the main distribution frame of the concentrator or the local exchange – and the public telecommunications network located on the customer premises within the coverage area of the equipment shelter in question.

The prices given in service-specific price lists are valid until further notice on Telia's build HVM subscriber area. The prices do not include VAT. The VAT applied is the VAT rate valid at any given time and it is added to the prices. Telia Finland Oyj reserves the right to change the prices. The term of payment is fourteen (14) days from the date of invoice. The penalty interest is the valid interest for late payment specified in section 4, paragraph 1 of the Finnish Interest Act.
