Yhteys subscriptions can be used in the EU/EEA area at domestic Finnish rates. Prices for calls and messages are for normally priced Finnish phone numbers, not service or company numbers. Messages include normally priced domestic messages and multimedia messages. Calls exceeding the included allowance are charged at the standard mobile call rate of 0.091 €/minute and text messages at 0.091 €/message. Sending a text message to an international number 0,29 €/message. Calls to domestic landline numbers cost 0.099 €/starting min.

When you have used up the EU/EEA data volume, you can continue surfing at 1,02 €/day for mobile phone subscriptions and 2,02 €/day for mobile broadband subscriptions. The price includes 1,0 GB/day for mobile phone subscriptions and 2,0 GB/day for mobile broadband subscriptions in the EU/EEA area. When you have used up the data volume included in the day price, you can continue surfing without any extra costs at the basic network speed (128 kbit/s) until the beginning of the next day, when the data transmission rate will be raised back to normal.

Mobile call charge (mcc) (per each starting min) 0,18 €. To check the other prices applicable to your subscription, visit telia.fi

Ranges of speed variation

Data transmission rate 5 Mbit/s

- The range of variation for incoming traffic is 1–5 Mbit/s in the 4G network.

Data transmission rate 10 Mbit/s

- The range of variation for incoming traffic is 4–10 Mbit/s in the 4G network.

Data transmission rate 20 Mbit/s

- The range of variation for incoming traffic is 4–20 Mbit/s in the 4G network

Data transmission rate 100 Mbit/s

- The range of variation for incoming traffic is 10–100 Mbit/s in the 4G network.

Data transmission rate 150 Mbit/s

- The range of variation for incoming traffic is 10–150 Mbit/s in the 4G network.

Data transmission rate 200 Mbit/s

- The range of variation for incoming traffic is 10–200 Mbit/s in the 4G network and 10–200 Mbit/s in the 5G network.

Data transmission rate 300 Mbit/s

- The range of variation for incoming traffic is 10–300 Mbit/s in the 4G network and 10–300 Mbit/s in the 5G network.

Data transmission rate 600 Mbit/s

- The range of variation for incoming traffic is 10–450 Mbit/s in the 4G network and 10–600 Mbit/s in the 5G network.

Data transmission rate 1000 Mbit/s

- The range of variation for incoming traffic is 10–450 Mbit/s in the 4G network and 10–1000 Mbit/s in the 5G network.

Data transmission rate 1200 Mbit/s

- The range of variation for incoming traffic is 10–600 Mbit/s in the 4G network and 10–1200 Mbit/s in the 5G network.
