Change to invoicing period € 10,00

An annual penalty interest is charged on late
payments as of the invoice due date. The annual
penal interest according to the Interest Act is the
valid reference rate set by the Bank of Finland
plus 7 percent.

The length of the invoicing period is one month.
A new invoicing period always begins on the same
day each month (e.g. begins on the 8th day of
the month and ends on the 7th day of the next
month). The first invoicing period can be longer or
shorter. The monthly charge is not invoiced for the
subscription's activation month with the exception
of, for example, call and SMS packages, where
the monthly charge is also invoiced for the acti-
vation month. The share of any unused calls and/
or text messages included in the subscription's
monthly charge/packages will not be reimbursed
to the customer. For a customer relationship
lasting less than one month, one monthly charge
is collected. No invoice is sent during the invoicing
month, if the total of a paper invoice is less than €
20 or the total of an electronic invoice is less than
€ 10. In such cases, the amount is carried over to
the next month's invoice.

Call packages are charged by the second. In
subscriptions charged by the minute, calls are
charged for each beginning minute. Minutes
exceeding a call package are always charged by
the minute for each beginning minute.

International calls

When you call abroad, the call rate consists of a
mobile call charge based on the type of subscrip-
tion and of the international call charge of the
operator selected by the customer. The mobile call
charge is the same as the charge for calls placed
from the subscription to the fixed network in
Finland. Video calls made abroad are subject to an
international call charge of the operator selected

and to a video call charge, which is determined
based on the subscription type. You can check
the Telia 990 and 990Pika international call rates
on the Internet at telia.fi/990hinnat In international
calls, you can select a service provider by first
dialling the desired international operator prefix.
If you enter the international prefix 00 or the +
sign (from the mobile phone) without an operator
prefix, the calls are automatically routed to the 990
network.

Other use abroad is priced according to the price
list valid at any given time.

The subscription also includes normal-rate calls
and messages from Finland to Sweden, Norway,
Denmark, Estonia, Latvia and Lithuania (not to
service numbers or premium-rate numbers).
Please note that the pricing applies to these coun-
tries only when the call is dialled with the following
international prefixes: +, 00, 990 or 99590.

Mobile phone abroad

Calls and text messages abroad

The Yhteys subscriptions work in the EU/EEA
area at domestic prices. The limitations related to
data use are presented in the table of the price
list. Receiving text messages is free of charge
everywhere in the world.

In the EU/EEA area (price categories 1 and 2), the
minimum charge for calls placed to Finland, the
country of stay or other EU/EEA countries is the
charge for 30 sec. After this, a per-second charge
is applied. In price categories 3, 4 and 5, calls are
charged per 30 seconds. Receiving calls in the
EU/EEA area is free of charge, whereas in price
categories 3, 4 and 5, calls are charged per 30
seconds.

The prices apply to normal-rate calls and messag-
es, not to premium-rate calls or messages such
as calls to service numbers. Multimedia messages
are charged according to the volume of data
transmitted and the data transmission charges.

Please note that abroad, the price for calling to
local service numbers may vary from operator to
operator, even when calling to the same service
number, and calls are charged according to the
price list provided to Telia by the local operator. In
addition, service numbers that are offered free of
charge to locals are not necessarily free of charge
for Telia's customers.

Data transfer in the EU/EEA area (price category 1 and 2)

Yhteys subscriptions include data transfer in the
EU/EEA area. See more in the subscription-spe-
cific price list

Data transfer in price category 3 countries

Price group 3 countries are subject to charge per
day. Data transfer costs €0.2480 per MB until the
per-day charge is reached during calendar day
(from midnight to midnight Finnish time).
The charging interval is 1 KB.

Once the daily quota has been reached, you can
order additional packages. Additional packages
are charged for in full when they are ordered. The
additional package remains valid until the end of
the day (Finnish time).

Data transmission in countries of price category 4

A charge per day is applied in the countries of
price category 4. Data transmission costs €0.99/
MB until the per-day charge is reached during a
calendar day (from midnight to midnight Finnish

time). The charged unit is 50 kB.

Once the daily volume has been reached, you
can order extra packages. Extra packages are
charged for in full when they are ordered. The
extra package remains valid until the end of the
day (Finnish time).
