

Telia Oma lasku service description

This service description tells you what your service contains. The service description is part of your Telia Oma lasku (Personal Bill) agreement.

General description

Telia Oma lasku service (hereinafter referred to as the "Service") is a supplementary service for a mobile subscription provided by Telia Finland Oyj (hereinafter referred to as "Telia"). The contracting party for the Service (employee) is not the same as the owner of the subscription (company). With the Service, the billing for service numbers, international calls and the use of an Yhteys Multi subscription from a company-owned subscription can be divided between the company and employee, on two separate invoices, in accordance with the barring options defined for the subscription.

Service deployment

The company defines the applicable barring category for the company-owned subscription, in accordance with which the company allows the use of service numbers and pays the bill for the use of such numbers. Similarly, the company can restrict international calls made from a company-owned subscription.

The company allows all employees to order the Service for their company-owned subscriptions.

Employees have the option of ordering the service for their company-owned subscriptions without an activation charge on the Minun Telia site. The monthly charge for the Service is €0.90 per month. When the Service is activated, an SMS is sent to the subscription for which the Service was ordered. The service is valid until further notice.

After the Service has been activated, the employee will be able to use the subscription for services that have been barred, make international calls from Finland and add an Yhteys Multi subscription to the Service. The employees themselves pay for the use of such services and the monthly service charge through separate invoices. When employees subscribe to the Oma lasku service, they will become Telia's consumer customers.

Service use

At any time, the company can make changes to the barring applied to the subscription concerning service numbers or international calls. After changing the barring, the Oma lasku service is automatically removed from users' subscriptions. The company informs users about the changed barring policies and the changed distribution of invoicing. In this case, the employee must re-order the Service so that it matches the new service barring options applied to the company-owned subscription.

When the Service is active for the subscription, the employee can use service numbers and make international calls from Finland regardless of the barring defined by the company, as well as use the Yhteys Multi subscription through the Service. Such service use is billed to the employee through a separate invoice sent through the Oma lasku service. Invoices can be sent by email free of charge or as a paper invoice according to the consumer price list. The first email will be sent electronically, after which the employee can choose the preferred invoicing method. The minimum billing limit is €20 for paper invoices and €10 for electronic invoices. The total subscription balance can be viewed on the Minun Telia site.

The Employee is personally responsible for all charges within the scope of the Service. The Service bills are collected from the employee and if bills are not paid, Telia has the right to deactivate the Service immediately and re-apply the original barring services to the subscription. After this, the subscription can only be used in accordance with the barring defined by the company. The Service can be re-enabled after the overdue Oma lasku service invoices have been paid.

Telia Oma lasku service description

Oma lasku is a subscription-specific supplementary service. If the employee's mobile phone subscription changes, the employee must terminate the Service. The employee is responsible for all use of the Service and charges related to it until the Oma lasku agreement has been terminated.

The employee can terminate the Service with immediate effect, in which case the barring category equivalent to the original category will be re-applied to the subscription. The Service can be terminated by calling Telia's corporate customer service.

The company has the right to know that the Oma lasku service has been activated for the subscription. The invoices in the Oma lasku service are visible only to the user. The company has the right to manage the subscription using the Service. The company's administrator has the opportunity to see the Oma lasku service through the Minun Telia Yrityksille portal. The company can change the subscription type, the name of the subscription holder, or the subscription barring categories, terminate the subscription or change the mobile operator for the subscription, in which case the Service is terminated automatically.

The company has the right to terminate the Oma lasku agreement with immediate effect, in which case the Oma lasku services of employees will end.

Other terms

Telia has the right to exclude companies or employees from the Service if the service user has not complied with the agreement or terms and conditions.

Telia can introduce new supplementary service options to the Oma lasku service.

Telia has the right to change this service description. Any issues not mentioned in this service description are subject to Telia's valid General Delivery Terms for Consumer Customers concerning services.
